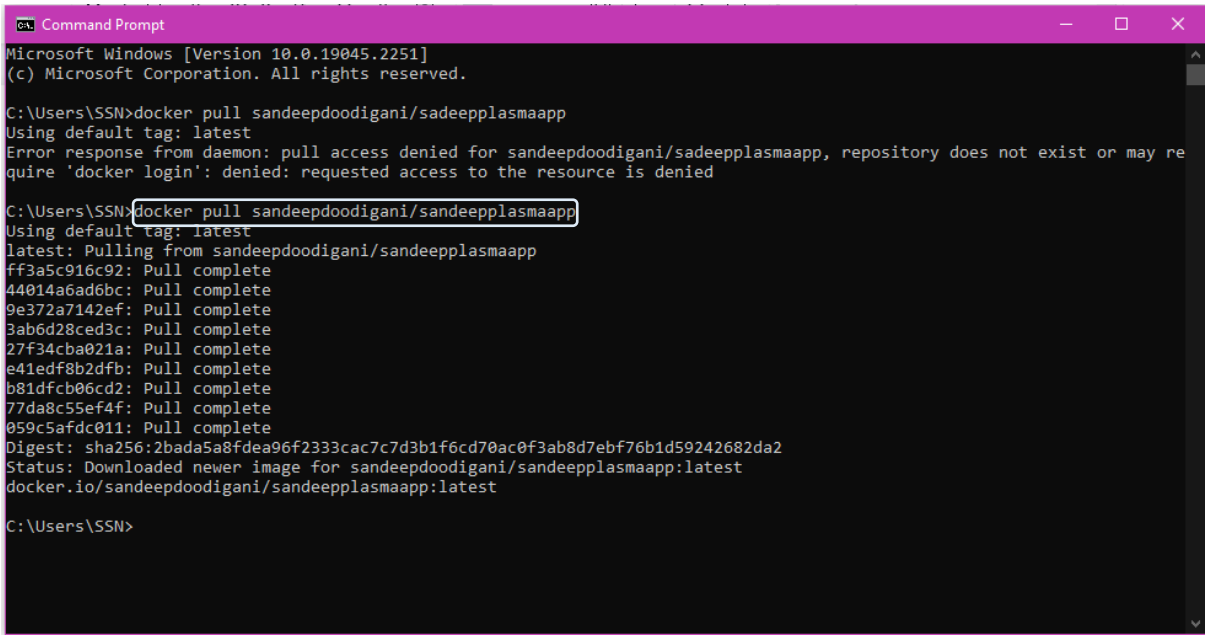
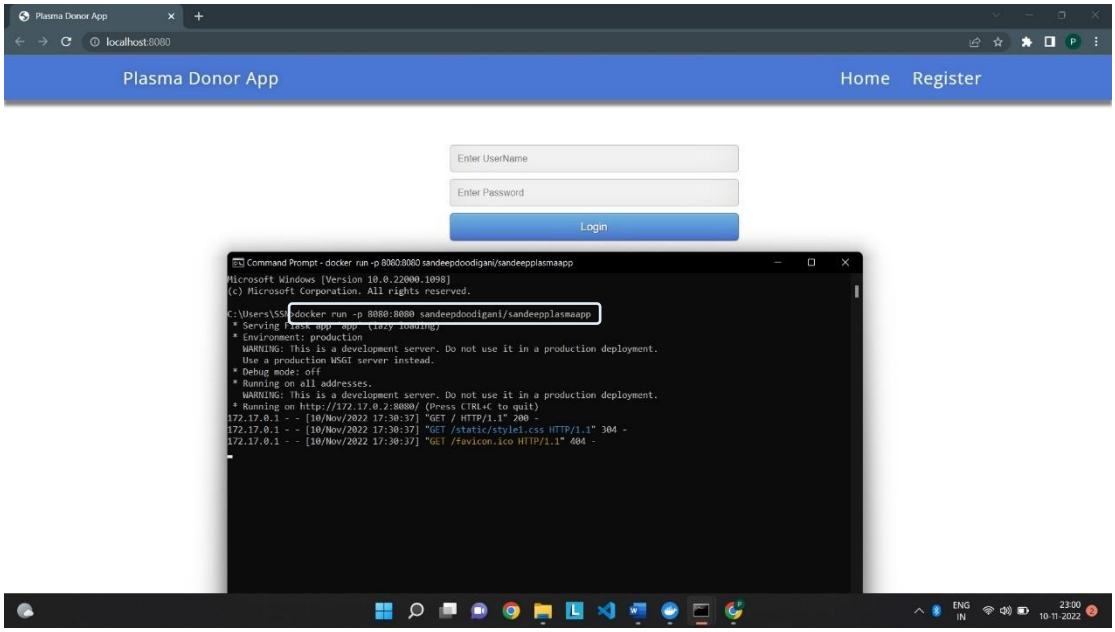
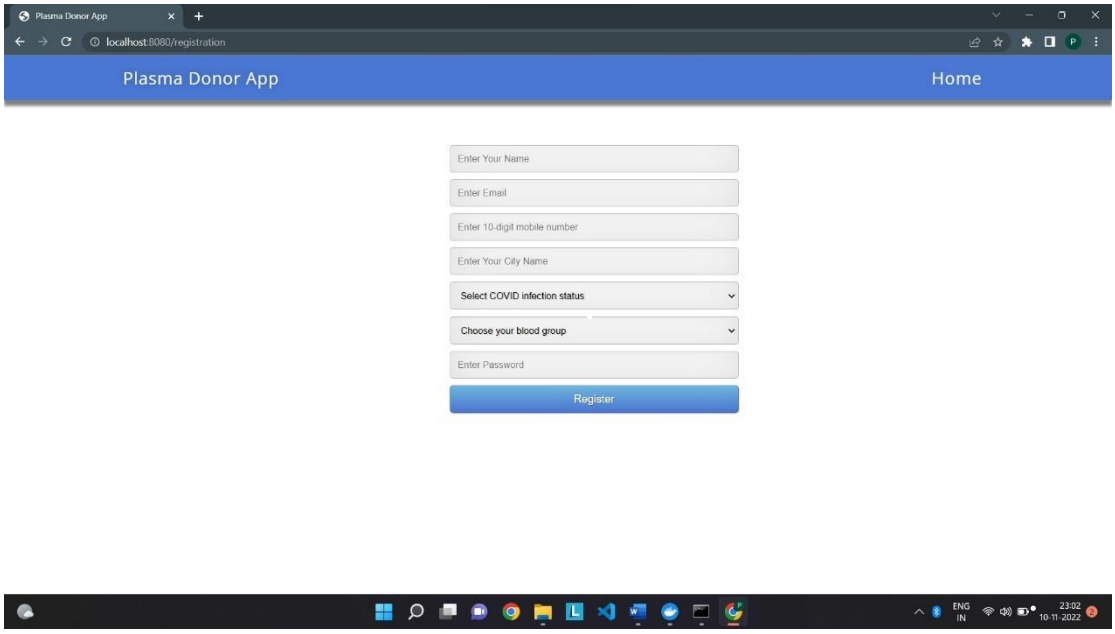
Name	Rishikesh B
Roll No	SSNCE195001128
Team ID	PNT2022TMID53102
Project Name	Skill and Job Recommander

1.Pull an Image from docker hub and run it in docker playground.







2. Create a docker file for the jobportal application and deploy it in Docker desktop application.

Program :

Dockerfile:

```
FROM python:3.6

WORKDIR /app

ADD . /app

COPY requirements.txt /app

RUN python3 -m pip install -r requirements.txt
```

```
RUN python3 -m pip install ibm_db

EXPOSE 5000

CMD ["python","app.py"]
```

Requirements.txt

```

Mission
SMARTBRIDGE is an edTech organization with a vision to bridge the gap between academia & industry. Our outcome-based experiential learning programs on emerging technologies (Internet of Things, Machine Learning, Data Science, Artificial Intelligence, Robotics) are building skilled entry - level engineers, for the corporate world. .
Vission
Our main objective is to bridge the existing gaps between prevailing industry standards and what the academics offer to the graduates while passing out of university. SmartBridge offers suitable skill deployment and training to the young talent before on boarding their first job. Our skill development programs are designed considering the present expectations in the industry.
Objective
Well directed career guidance programs for educational institutions Appropriate certification courses that suit the industry need Train the trainers; expanded awareness about the current industry standards Liaise with corporates to offer niche internships Establish technology development centers in colleges Specialised incubation centers in collaboration with corporates
